John J. Douglas and Miss Dixie Lovan were married at Lexington two days before the groom left for army service. The bride formerly lived in Madisonville.

Former Senator Isaac Stephenson died at his home in Marinette, Wis., yesterday, aged 89 years. He was up to a year or two ago a member of the Senate and was the oldest and wisest member.

Pembroke has started out to enforce its vagrancy law against all able bodied men. Even "father" must either grab a hoe or toy with the handle of a rock hammer.

The Senate has passed a bill to submit a constitutional amendment authorizing the removal from office of public officers who fail to afford protection to prisoners and allow them to be lynched by mobs.

The case against The Courier-Journal for criminally libelling Judge C. H. Bush was set for March 7, but no special Judge has yet been appointed by the Governor to try the case. As Judge Bush cannot sit in his own case, the trial of the case at this term of court, is uncertain.

From the best information obtainable, the movement of troops from Christian county will not begin March 29 and probably not until about April 10th. It is practically settled that the colored registrants who have been passed will be called next. The entire quota of 324 men in the first draft were white men and it is doubtful if any white men will be in the next call, as 40 per cent of the registrants in this county are colored.

ASSESSMENT
CUT \$1,000,000

CHRISTIAN COUNTY'S LIST WAS HELD TO BE TOO MUCH INCREASED.

Former Assessor W. J. McGee and County Attorney Sam T. Fruitt have returned from Frankfort, where they appeared before the Tax Commission and succeeded in having Christian county's assessment lowered from \$24,000,000 to \$23,000,000 in round numbers. This is still an increase of \$10,000,000 over last year's assessment. The reduction of \$1,000,000 will be \$750,000 on farm lands and \$250,000 on city property.

A letter from Chairman M. M. Logan, of the state tax commission, to Judge Champlin regarding the reduction for this county, gives this high praise of Assessor McGee's work.

"In the first place we want to take this occasion to express our thanks and gratitude to your county assessor Mr. McGee, for the splendid work which he has done. He deserves the highest commendation not only from the state tax commission but from all the citizens of his county. He has shown himself to be a fearless, conscientious, painstaking official. We also want to express our appreciation to the people who have so well responded to his suggestions. His work has been so well done that Christian county is one of the few counties assessed above the standard which we have fixed for the present year."

UNCLE SAM IS TO STILL HELP RUSSIA

STAMPEDE TO ABOLISH MANY USELESS JOBS

Both Parties Flop Together
and Action Is By Unanimous Vote.

BOB COOK ONE OF LOSERS

New Board of Five, All Democrats, Will Supersede
Old Board.

Frankfort, Ky., March 15.—In a stampede of both parties to make clean records, the Senate by unanimous vote yesterday passed the bill abolishing many of the offices created in recent years by the Legislature, the bill to take effect immediately.

This was the result of Edwin P. Morrow's action in lining up Republican Senators against continuing the offices for two years.

The Democrats were not to be caught napping by the camouflage of Morrow. A conference was held by leaders of the dominant party, which resulted in the drawing in of party lines and the strengthening of defenses, and backed by a solid line-up of Democratic Senators, the Rules Committee called up for passage the Richardson measures, known as the Probe Bills, providing for the abolition or consolidation of over a hundred offices, and passed them. The Republicans voted "aye" to most of them, but their votes were superfluous.

Under the provisions of the bills they become effective ninety days after the adjournment of the Legislature.

The fire of the officials was centered tonight on the members of the House of Representatives and all of the political pressure at their command was brought to bear to get the bills amended to become effective at the expiration of the terms of the appointees, as originally provided for in the report of the Joint Probe Committee. The offices abolished follow:

State Prison Board—Three members at \$2,600; secretary.

State Board of Control—Four members at \$2,500; secretary.

State Rating Insurance Board—Two members at \$3,000; secretary at \$600, actuary at \$3,000, attorney at \$3,000 and six clerks.

Two State school inspectors and two clerks.

Supervisor of Revenue Agents at \$3,000.

State Board of Forestry—Five members, nonsalaried.

Geological Survey Board—Four members, nonsalaried.

Commissioner of Motor Vehicles, \$2,500; clerk and two stenographers.

Compiler of Confederate Records, \$1,200.

In addition to these places Senator Richardson said the bills abolishing heads of departments also abolished the subordinates, which would mean the State revenue agents, ten employees of the Geological Survey.

The Auditor may appoint one revenue agent for each county and four for the State at large, but this never is done and there are not half that number in service at present.

The probability is that if the departmental employees thus are legislated out, many of them will be reinstated under the new order, though Senator Richardson predicted that there will not be half so many.

The saving of the State he estimates at \$200,000. Probably \$50,000 in printing, as much in claims, \$45,000 in appropriations and over \$50,000 in salaries.

These estimates include the Hotel Inspector's office and the Tuberculosis Commission already merged into the State Board of Health.

In place of the Prison Board and Board of Control there is created a Board of Control of penal and charitable institutions, composed of five members, appointed by the Governor at a salary of \$3,000, excepting the chairman, who is to receive \$3,600 and reside here.

A superintendent of rating at \$3,000 is to succeed the State Rating Board. He is appointed by the Auditor, who appoints the Rating Board.

The State Inspector and Examiner is to inspect schools without additional compensation.

The Department of Forestry and Geological Survey are consolidated, cutting off a \$15,000 appropriation for the former. One is to be head of the department at a salary of \$8,

CIGAR FACTORY PROPOSITION

Discussed Last Night At
A Citizens' Business Meet-
ing At H. M. B. A.

REPORT WAS RECEIVED

From The Committee That
Went To Paducah To
Inspect Plant

A meeting was held at the H. M. A. last night to receive the report of the committee who went to Paducah to investigate the cigar factory there and to confer further with Mr. Weis about his proposition to bring a similar factory here.

Mr. Weis made a definite and positive proposition to come with the factory provided suitable building is furnished for rent and a guarantee of at least 300 women and girls to work in the factory is given at the start.

Committees were named to ascertain if the conditions can be met and they will go to work at once. These committees are:

Building—M. C. Forbes, J. E. McPherson, R. E. Cooper, Ed L. Weatherers, and Sam Frankel.

Applications For Labor—L. H. Davis, C. R. Clark, J. T. Wall, H. A. Keach, Archie Higgins, L. R. Davis and Low Johnson.

Publicity—G. E. Gary, L. K. Wood, J. D. McGowan, M. E. Bacon and H. A. Robinson.

A subscription was started and more than \$10,000 was subscribed by those present towards the erection of a building for lease.

Applications may be made at the H. M. A. by those who want work.

000, and the other assistant at \$2,500.

The Confederate Pension Commissioner is to take over the work of the Compiler of Confederate Records without additional compensation.

The revenue agents and the motor vehicles department are taken over by the State Tax Commission without any additional allowance.

It is probable that Prison

Commissioners Henry Hines of Kling Green; Herbert Carr of Frankfort, and F. T. Hatcher of Pikeville; and J. Forrest Butts of Carrollton, and J. A. Burton, of Lebanon, Democratic members of the Board of Control, will go on the new Board at salaries of \$3,000, excepting the chairman, who draws \$3,600. This leaves off the two Republicans of the present Board of Control, Dr. Arch Dixon of Henderson, and C. A. Cook of Hopkinsville.

Two State school inspectors and two clerks.

Supervisor of Revenue Agents at \$3,000.

State Board of Forestry—Five members, nonsalaried.

Geological Survey Board—Four members, nonsalaried.

Commissioner of Motor Vehicles, \$2,500; clerk and two stenographers.

Compiler of Confederate Records, \$1,200.

Washington, March 15.—Eastern railroads won a substantial victory this afternoon when the Interstate Commerce Commission granted 15 per cent increase in classes and commodities on all roads in that section of the country. The increase is allowed on practically all articles in which the roads asked an increase. It marks the first rate increase of consequence since the Federal Government took over the operation of roads.

German prisoners of war are to be distributed over areas which the enemy's aircraft are subjecting to attack in their raids, according to the late reports today. "This," says one newspaper, "is being done because the allied governments have learned that prisoners of their nationalities in German hands already have been soaped in all towns which the German government considers likely to be attacked."

That "many want peace at any price," that the "starvation policy of our enemies has a certain extent borne fruit," that "hardships are increasing from day to day," and that "it is becoming daily more difficult to carry on the war to a successful termination" were statements made by Count Julius Andrássy, former Hungarian premier, in the Hungarian Chamber of Deputies on February 6, according to German newsmen received in this country.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly... Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then... it would last... two weeks, and was so weakening, and my health was awful."

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children... Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years.

Begin taking Cardui today. It may be the very medicine you need.

pet to enable us to go over the top on the lifting of the barrage. "Ladders of death" we called them, and veritably they were.

Before a charge Tommy is the poison of men. There is never any pushing or crowding to be first up these ladders. We crouched around the base of the ladders waiting for the word to go over. I was sick and faint, and was puffing away at an unlighted fag. Then came the word, "Three minutes to go; upon the lifting of the barrage and on the blast of the whistles, 'Over the top with the best o' luck and give them hell.'" The famous phrase of the western front. The Jonah phrase of the western front. To Tommy it means if you are lucky enough to come back you will be minus an arm or a leg. Tommy hates to be wished the best of luck; so, when peace is declared, if it ever is, and you meet a Tommy on the street, just wish him the best of luck and duck the brick that follows.

I glanced again at my wrist watch. We all wore them and you could hardly call us "sissies" for doing so. It was a minute to four. I could see the hand move to the twelve, then a dead silence. It hurt. Everyone looked up to see what had happened, but not for long. Sharp whistle blasts rang out along the trench, and with a cheer the men scrambled up the ladders. The bullets were crackling overhead, and occasionally a machine gun would rip and tear the top of the sandbag parapet. How I got up that ladder I will never know. The first ten feet out in front was agony. Then we passed through lanes in our barbed wire. I knew I was running, but could feel no motion below the waist. Patches on the ground seemed to float to the rear as if I were on a treadmill and scenery was rushing past me. The Germans had put a barrage of shrapnel across No Man's Land, and you could hear the pieces slap the ground about you.

After I had passed our barbed wire and gotten into No Man's Land a Tommy about fifteen feet to my right from turned around and looking in my direction, put his hand to his mouth and yelled something which I could not make out on account of the noise from the bursting shells. Then he coughed, stumbled, pitched forward and lay still. His body seemed to float to the rear of me. I could hear sharp cracks in the air about me. These were caused by passing rifle bullets. Frequently, to my right and left, little spurts of dirt would rise into the air and a ricochet bullet would whine on its way. If a Tommy should see one of these little spurts in front of him, he would tell the nurse about it later. The crossing of No Man's Land remains a blank to me.

Men on my right and left would stumble and fall. Some would try to get up, while others remained huddled and motionless. Then smashed-up barbed wire came into view and seemed carried on a tide to the rear. Suddenly, in front of me loomed a barbed trench about four feet wide. Queer-looking forms like mud turtles were scurrying up its wall. One of these forms seemed to slip and then rolled to the bottom of the trench. I leaped across this intervening space. The man to my left seemed to pause in midair, then pitched head down into the German trench. I laughed out loud in my delirium. Upon alighting on the other side of the trench I came to with a sudden jolt. Right in front of me loomed a giant form with a rifle which looked about ten feet long, on the end of which seemed seven bayonets. These flashed in the air in front of me. Then through my mind flashed the admonition of our bayonet instructor back in Blighty. He had said, "whenever you get in a charge and run your bayonet up to the hit into a German the Fritz will fall. Perhaps your rifle will be wrench from your grasp. Do not waste time, if the bayonet is fouled in his equipment, by putting your foot on his stomach and tugging at the rifle to extricate the bayonet. Simply press the trigger and the bullet will free it." In my present situation this was the logic, but for the life of me I could not remember how he had told me to get my bayonet into the German. To me this was the paramount issue. I closed my eyes and lunged

During the bombardment you could almost read a newspaper in our trench. Sometimes in the flare of a shell-burst a man's body would be silhouetted against the parapets of the trench and it appeared like a huge monster. You could hardly hear yourself think. When an order was to be passed down the trench you had to yell it, using your hands as a funnel into the ear of the man sitting next to you on the fire step. In about twenty minutes a generous run issue was doled out. After drinking the rum, which tasted like varnish and sent a shudder through your frame, you wondered why they made you wait until the lifting of the barrage before going over. At ten minutes to four word was passed down: "Ten minutes to go!" Ten minutes to live! We were shivering all over. My legs felt as if they were asleep. Then word was passed down: "First wave get on and near the scaling ladders."

These were small wooden ladders which we had placed against the parapet

forward. My rifle was torn from my hands. I must have gotten the German because he had disappeared. About twenty feet to my left front was a huge Prussian nearly six feet four inches in height, a fine specimen of physical manhood. The bayonet from his rifle was missing, but he clutched the barrel in both hands and was swinging the butt around his head. I could almost hear the swish of the bayonet as it passed through the air. Three little Tommies were engaged with him. They looked like pygmies alongside of the Prussian. The Tommy on the left was gradually circling to the rear of his opponent. It was a funny sight to see them duck the swinging butt and try to jab him at the same time. The Tommy nearest me received the butt of the German's rifle in a smashing blow below the right temple. It smashed his head like an eggshell. He pitched forward on his side and a convulsive shudder ran through his body. Meanwhile the other Tommy had gained the rear of the Prussian. Suddenly about four inches of bayonet protruded from the throat of the Prussian soldier, who staggered forward and fell. I will never forget the look of blank astonishment that came over his face.

Then something hit me in the left shoulder and my left side went numb. It felt as if a hot poker was being driven through me. I felt no pain—just a sort of nervous shock. A bayonet had pierced me from the rear. I fell backward on the ground, but was not unconscious, because I could see dim objects moving around me. Then a flash of light in front of my eyes and unconsciousness. Something had hit me on the head. I have never found out what it was.

I dreamed I was being tossed about in an open boat on a heaving sea and opened my eyes. The moon was shining. I was on a stretcher being carried down one of our communication trenches. At the advanced first-aid post my wounds were dressed, and then I was put into an ambulance and sent to one of the base hospitals. The wounds in my shoulder and head were not serious and in six weeks I had rejoined my company for service in the front line.

Cause of Cold Feet.

Cold feet may be habitual, constitutional or from general ill health, commonly they are so by habit. Tight shoes, a sedentary life and overeating are often guilty, asserts an authority. When there is too little ventilation of the feet or the stockings are too thick, the relief isn't easy. The feet are kept warm better by wearing thin hose and low shoes, cold baths and vigorous massage, active exercise outdoors—especially walking—than by inactive indoor life. Frequent daily washing of the feet helps to restore their warmth.

Box to Hold Vegetables.

The box should be divided by partitions, the largest space being for potatoes, another for apples, etc. Where space is at such a premium that provisions have to be bought in small quantities this plan will add much to the comfort and convenience of the kitchen. It may be covered neatly and utilized for a seat. Have the cover hinged so that it will be easy to open.

Great Rubber Producer.

The Malay peninsula is the largest rubber-producing and rubber-exporting country in the world. Ten years ago the production was small, as compared with that of Brazil, which was then the principal source of supply. Its advent to first place as a rubber-producing country is due to its favorable climatic and soil conditions.

"We Must Sail, Not Drift."

I find the great thing in this world is not so much where we stand, as in what direction we are moving, writes O. W. Holmes. To reach the port of heaven, we must sail sometimes with the wind and sometimes against it—but we must sail, and not drift, nor lie at anchor.

Lexington, Ky., March 14.—A probe into the traffic of drugs and narcotics in Lexington, carried on for more than a week by T. S. Thieves Bury Auto.

Somewhat out of the ordinary in making away with stolen cars was the method of Springfield, Mass., thieves, who buried a car in a lonely wooded spot not far from the state line. Boys passing discovered what appeared to be a newly made grave and notified the police, who when they dug a short time, uncovered a windshield. The car bore a Massachusetts license.

Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

How Mrs. Boyd Avoided an Operation.

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well.

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my trouble, so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them." —Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

COUNTY DEMONSTRATOR HURT.

Owensboro, Ky., March 14.—Mrs. Walter Evans, County Food Demonstrator for Daviess county, was seriously injured yesterday when the automobile she was driving up a steep hill turned over backward, pinning Mrs. Evans and Miss Cary Hawes beneath it. Miss Hawes was

not injured. It was some time before the machine was removed from Mrs. Evans. Several of her ribs were broken and it is thought she was internally injured.

Joel E. Parker and family will leave tomorrow for Christian county where they will reside. They will live near Crofton and Mr. Parker and his sons will engage in farming.—Cadic Record.

WANTED--AMERICANS!

There are 90,000,000 of us in the United States-- all in the family of our own Uncle Sam.

And Uncle Sam needs mo--ev-- your money-- everybod--'s money. He doesn't ask you to give it to him; he wants to borrow and pay you interest for it.

Maybe you didn't have \$50 or \$100 to lend him in Liberty Bonds, but surely you have 25 cents. If we, all of us, buy one thrift stamp--just one stamp apiece--that is \$22,500,000, and if everyone of us buys \$4.12 worth --25 cents worth from time to time for sixteen times--that's \$370,800,000.

Your pin money does help. Doesn't it?

We don't know how much money you have--how much--how little. It doesn't matter, any way. For it is getting to a point that every man--every woman--every boy--every girl--must make the business of helping win this war--the most important thing on earth.

Like the Liberty Bonds, the war savings certificates bear 4 per cent interest. On January 1, 1923, each certificate will be worth \$5. These stamps are exchangeable at face value plus accumulated interest at any time between now and January 1, 1923.

TOBACCO MARKET UNCHANGED

SALES FOR WEEK OVER MILLION POUNDS AND WET TOBACCO DECREASES THE AVERAGE.

The tobacco market on the loose floors remains practically unchanged as compared with the previous week. Deliveries have not been so heavy the past few days, due to the fact that farmers have been taking advantage of the dry clear days to make preparations for another season's crop.

Much wet and damaged tobacco continues to be offered, but the buyers are reluctant about bidding on this and the prices are consequently low. This has occasioned a large per cent of the rejections. High

grade tobacco is eagerly sought after and prices on such continue strong with no evidence of a decline.

The sales to date this season are only 794,255 pounds below the sales this date a year ago. Below is shown the Inspector's weekly report which is as follows:

Week ending March 14, 1918.
LOOSE FLOORS.
Sales for week 1,196,425 lb
Sales for season 9,569,645 lb

Do Your Best 'Bit' This Year By Determining Not To Leave a Bit of Cultivable Land Unplowed

There was never a time when the farmer, the farm and the farm products were more in the limelight and held greater attention, a time when more depended on the intelligent cultivation of the greatest acreage than right now.

The farmer's battle with his problems and the elements is every whit as important as the battles that will be fought in the trenches of Europe. It is generally conceded that FOOD WILL WIN THIS WAR--and the growing of food is the farmer's business.

Another big Red Cross drive to raise a Hundred Million Dollars for work among our soldiers camps in this country and at the front in France will be staged during the week of May 20 to 27. Make ready to "rally 'round the (Red) Cross" when the time comes.

The campaign will be outlined and managed by James Breathitt, Jr., who has been named as director for Christian county. Fire yesterday morning about 10:30 o'clock badly damaged the home of Mr. Herbert L. Haydon, E. 13th street. The roof of the building was practically destroyed. The flames originated from a spark falling on the roof and the fire had made considerable headway when an alarm was turned in. The house belongs to Mr. George Thacker and was insured.

A tenant house on the farm of J. C. Barnes, near Kelly, was destroyed by fire Thursday evening, together with most of the contents. The loss is probably \$500. There was \$100 insurance on the building.

PRINCESS TODAY.

Mae Marsh in "The Cinderella Man." Beyond question the most powerful and appealing screened love story of the year," says N. L. Nathan, owner of a chain of Canadian theatres.

"The picture that will double Mae Marsh's popularity in North America," says J. R. Muir, the big Vancouver-Victoria-Nanaimo theatre magnate.

"By odds the greatest Mae Marsh production and George Loane Tucker's biggest picture," says Joseph Grossman, Standard Theatre, Cleveland.

Telegraphing from Los Angeles A. H. Woods, the successful theatrical magnate, says: "Just saw 'The Cinderella Man' at your pictures. There is no word in the English language powerful enough to describe this wonderful production."

PRINCESS MONDAY.

Beautiful Pauline Frederick is to be seen in her latest Paramount photoplay, "Madame Jealousy" at the Princess Theatre on Monday. "Madame Jealousy" was written by George V. Hobart, author of "Experience," "Every Wife," and other allegorical plays, and was directed by Robert Vignola. In it Miss Frederick portrays brooding "Jealousy" and symbolically carries out her part in breaking up a love affair between two young people, Charms and Valor. Valor is played by handsome Thomas Meighan who has often appeared with Miss Frederick, notably in "Sapho," "The Love That Lives," and others as well known.
